

The legislature had its special session. Now, you have yours.

REINVENTING CONNECTICUT

Last month's special session on jobs resulted in a comprehensive set of pro-business measures being adopted that will help businesses—most notably small businesses—prosper and grow.

We invite you to learn firsthand how this new legislation can positively affect your business by attending one of the meetings listed. Additional dates, times and locations are being added, so be sure to check www.decd.org for updates. We will also be hosting webinars for those that cannot participate in person.

With \$180 million in new funding specifically targeted to small business, these new initiatives are a key piece of Governor Malloy's strategy to accelerate our economic recovery and reinvent Connecticut. These sessions are a great opportunity to learn about our programs to assist business and to meet one-on-one with economic development representatives to access fast-track assistance from the state. We look forward to meeting you!

DECD Commissioner Catherine Smith
